

At St Thomas More Catholic Academy all students have their own individual account with Unifrog.

This is a brilliant site that will allow your son / daughter to:

- have their own personal log-in where they can search information about a whole variety of careers
- search for opportunities at both local and national colleges and universities
- complete personality profiles that sign post them to possible future careers
- look at intelligence about the local and national labour market, indicating what career opportunities are available

We will be using this site in school during careers sessions, PHSE lessons and WOW weeks. However, it is a site that students and families can use at any time to access up to date information about careers.

Below is a video that explains more about the platform.

<https://youtu.be/KksyeliHOAw>

Every student should have an individual log-in. Their password can be reset by using the reset password link.

If you have any questions, including any problems logging in, please don't hesitate to ask, and enjoy looking at the site with your son / daughter.
